# ALLERGY

ONLINE MODULE (Starts April)

## Programme Overview

- For professionals working in a health or life sciences field including clinicians, allied health professionals, and scientists with a particular interest in **clinical allergy**
- Suitable for people working with **children and adults**
- Entry: MBBS, BDS, BSc or an appropriate professional qualification
- Part-time over 14 weeks
- April 2018 tuition fee: £870
- Ideal for continuing professional development
- Combine with two self-selected modules for a PG Certificate in Clinical and Health Sciences with Allergy

### Built around topic weeks which include:

- Basic immunology for clinical allergy practice
- Clinical evaluation of the patient, including diagnostic options and management approaches
- Anaphylaxis
- Asthma
- Allergic skin disease, including eczema, urticaria and angioedema
- Drug allergy
- Food allergy (both IgE mediated disease and non-IgE mediated disease)

### Online Assessment Methods:

- Case study review
- Multiple choice questions
- Written exercise
- Problem solving exercises

**"I absolutely loved this module and would recommend it to any healthcare professional who is involved with allergy"**

Health Visitor

**"The high point of the course was the webinars which brought learners 'virtually' together and allowed a fantastic faculty facilitated discussion that was a refreshing way to network and learn"**

Consultant Paediatrician
