

22 October 2026

Dear BSACI nurses,

As Chair of the Nurses Special Interest Group (SIG), I am inviting you to submit an expression of interest in our mentorship programme, which we launched last year.

Following feedback from our survey, we recognise the value of mentorship, particularly for nurses working in isolation or those who are new to allergy. We have decided to relaunch the programme with additional guidance and a mentorship portfolio to help participants structure their meetings, record visits and track their progress.

The programme can continue for as long as both partners agree, but we ask for a minimum commitment of one year.

Both mentor and mentee need to be a BSACI member.

If you are interested in becoming a mentee, please include:

- Your workplace
- Whether you work in paediatric or adult allergy
- How long you have worked in allergy
- Your professional goals and what you hope to achieve through mentorship

If you are interested in becoming a mentor, please include:

- Your workplace
- Whether you work in paediatric or adult allergy
- How long you have worked in allergy
- The areas of allergy in which you would be happy to offer support

Please send your expression of interest by **Friday 13th November**. We will then review submissions and match mentors and mentees as closely as possible to their experience, interests and goals.

If you have any questions, please do get in touch.

We hope you will consider getting involved and look forward to hearing from you.

Best wishes,

Rebecca

Chair, BSACI Nurses Special Interest Group

Paediatric Allergy Nurse Consultant, Evelina London Children's Hospital
Course Director for Allergy Academy
